

# 12 questions to ask your OB-GYN about Uterine Fibroids and Treatment Options

For UFE patients

Do I need treatment?

What are my options?

Are there options besides surgery?

What are the risks of surgery?

What are the chances the fibroids return after treatment?

When will I feel better?

Is there anything I can do to prevent fibroids?

I'm considering UFE - Do you work with an Interventional Radiologist?

Are the fibroids hurting my chances of getting pregnant?

How will treatment affect my chances of getting pregnant?

I definitely still want to have children after treatment. What are my best treatment options?

What treatment is the best option for me?

NOTES:
